#### 1. Qualitative Information on Financial Results for the Quarter under Review

#### (1) Explanation of Operating Results

(Overview of Economic Conditions)

The global economy is expected to continue its gentle recovery, but there is increasing uncertainty in the economies of each region. In China, for example, there is the problem of excessive debt and the possibility of an economic slowdown resulting from the impact of fluctuation in real estate prices. In the United States, there is uncertainty with respect to policy, such as tax reform, infrastructure investment and international trade policy. Finally, in Europe there are the negotiations for Great Britain's exit from the EU and the possibility of significant policy changes resulting from elections in some countries. Furthermore, there is concern over the possibility that fluctuations in the financial and capital markets may have repercussions in the real economy.

On the other hand, the Japanese economy is expected to continue its gentle recovery, in part due to the effects of various policies, as the employment and income environment continue to improve.

#### (Industry Trends)

According to the statistical data independently collected by a group company RECOF DATA Corporation, the number of M&A deals publicly announced in relation to Japanese companies has been recovering since it declined to 1,687 in 2011 (January to December) due to the impact of the Global Financial Crisis and the Great East Japan Earthquake, to reach 3,050 in 2017 (January to December), the highest number since statistics began, as the recovery continues.

Furthermore, the Group estimates that there are many examples of successful M&A deals that have not been publicly announced in the M&A market, and due to the presence of players with a strong desire to make acquisitions centered primarily on operating companies, funds and corporate venture capital (CVC), along with rising needs for transfer such as business succession needs, M&A demand centered on small and medium-sized companies is forecast to continue to rise in the future.

#### (Condition of the Group)

During the previous consolidated fiscal year, which was the Group's first fiscal year, the Group redeveloped its business processes for the purpose of improving the profitability and operational efficiency of RECOF Corporation and RECOF DATA Corporation, and the measures that had been planned up to now have mostly been completed.

During the consolidated first quarter under review, directors were reassigned, and

their responsibilities were reviewed primarily for the purpose of strengthening internal control and cooperation within the Group. Additionally, cross-divisional projects were launched and are being implemented to strengthen information sharing within the Group with an emphasis on knowledge sharing and enhanced matching in order to address the needs of the M&A market, which are expected to increase exponentially.

Based on these activities, the Group as a whole closed 37 deals to update the number of deals closed within the consolidated quarterly accounting period.

The Company closed 29 deals, marking a record high for a quarterly accounting period, thanks in part to the abundant inventory of proposals from the previous fiscal year. We are also working to expand our business by continuing to promote the planning of large-scale seminars and hiring of outstanding personnel.

There has been a growing inventory of proposals at RECOF Corporation since the previous fiscal year. Eight deals were closed, surpassing the strong number of deals closed during the previous fiscal year, and giving it a favorable fiscal year start. Together with RECOF DATA Corporation, efforts will continue to be made to strengthen hiring along with the implementation of aggressive marketing activities in the aim of expanding the scale through the end of the fiscal year.

		6	7	+1		

The Company's sales was favorable, surpassing those of the previous fiscal year, but at RECOF Corporation, sales fell short of the previous fiscal year due to major industry-reorganizing deals in the previous fiscal year.

As a result, net sales in the consolidated first quarter under review were \$2,283.055 million (a decrease of 10.7% year on year), operating income was \$1,034.032 million (a decrease of 19.5% year on year), ordinary income was \$1,034.380 million (a decrease of 18.7% year on year), and profit attributable to owners of parent was \$721.298 million (a decrease of 19.8% year on year).

Segment information is omitted because our Group's reporting segment is only the M&A-related services business, and it is immaterial as disclosure information.

## (2) Explanation of Financial Position

#### (Current assets)

As of the end of the consolidated first quarter under review, current assets amounted to \$10,911.474 million, an increase of \$114.296 million year on year. This was primarily due to a \$52.041 million increase in cash and deposits as a result of payments of \$744.631 million for income taxes and \$265.460 million for consumption taxes with respect to recording \$1,034.380 million in income before taxes.

#### (Non-current assets)

As of the end of the consolidated first quarter under review, non-current assets amounted to \$2,562.575 million, a decrease of \$66.002 million year on year. This was primarily due to a decrease of \$48.365 million in goodwill resulting from amortization of goodwill.

#### (Current liabilities)

As of the end of the consolidated first quarter under review, current liabilities amounted to \$1,388.179 million, a decrease of \$684.006 million year on year. This was primarily due to a \$446.352 million decrease in accounts payable - other resulting from bonus payment and a \$347.663 million decrease in income taxes payable, while there was a \$250.936 million increase in provision for bonuses

#### (Non-current liabilities)

As of the end of the consolidated first quarter under review, non-current liabilities amounted to \$282.047 million, a decrease of \$13.742 million year on year. This was primarily due to a \$11.917 million decrease in net defined benefit liability.

#### (Net assets)

As of the end of the consolidated first quarter under review, net assets amounted to \$11,803.824 million, an increase of \$746.042 million year on year. This was primarily due to an increase in capital stock and legal capital surplus of \$12.372 million each resulting from the exercise of stock options and a \$721.298 million increase in retained earnings.

## (3) Explanation of Forecast of Consolidated Financial Results and Other Forward-looking Statements

No changes have been made to the forecast for consolidated financial results announced on October 27, 2017.

During the consolidated first quarter under review, there were several major deals, showing steady progress on the forecast for consolidated financial results. However, the M&A-related services business, which is our business, is affected by various factors, including the economic environment and the business environment of the parties, and subject to many uncertainties. Because significant uncertainty accompanies forecasts depending on the timing of the deal and the amount of fees, we are not changing the figures of the forecast at this time.
