#### 1. Qualitative Information on Financial Results for the Quarter under Review

### (1) Explanation of Operating Results

(Overview of Economic Conditions)

During the consolidated cumulative third quarter under review, the Japanese economy continued its gentle recovery backed by continually strong corporate earnings and consumer spending, along with the recovery of overseas economies. Meanwhile, there are still concerns about uncertainty in the international economy such as heightened tension surrounding trade issues, and attention to a downturn in the economy continues to be required.

#### (Industry Trends)

The M&A market related to domestic companies that are the Group's main targets continues a trend of expansion.

Although it is estimated that there are many unannounced M&As, according to the statistical data independently collected by the Group company RECOF DATA Corporation, the number of announced M&A deals involving domestic companies has been recovering since the slump to 1,687 in 2011 (January to December) caused by the Lehman Shock and the Great East Japan Earthquake, and in 2017 (January to December) reached 3,050, which is the highest level since statistics began to be recorded. Moreover, most recently in 2018 (January to June), the number has continued to rise, reaching 1,798 deals, a 32.7% increase year on year.

Furthermore, it has been determined that opportunities to provide M&A advisory services will continue to increase due to the presence of players with a strong desire to make acquisitions centered primarily on operating companies, funds and corporate venture capital (CVC), along with the existence of increasingly high needs to transfer businesses in the context of the issue of business succession becoming a social problem.

#### (Condition of the Group)

During the consolidated cumulative third quarter under review, the Group as a whole actively promoted hiring activities focused on securing consultants in response to the favorable trend in the M&A market that has continued since the previous year.

Additionally, group companies continue to promote measures aimed at enhancing promotions, including holding seminars and updating their websites. Efforts are also being made to strengthen the Group overall, including cooperation within the Group, in order to address the needs of the M&A market, which are expected to increase exponentially.

Based on these activities, the Group as a whole closed 94 deals to set a new record number of deals closed within the consolidated cumulative third quarter. The Company closed 77 deals, marking a record high for a cumulative third quarter, thanks in part to the abundant inventory of proposals from the previous fiscal year. There has also been a growing inventory of proposals at RECOF Corporation since the previous fiscal year, and in the cumulative third quarter under review things continued to go well with 17 deals closed, surpassing the number from same period of the previous fiscal year, which was already favorable.

The Company's sales were favorable, surpassing those of the same period of the previous fiscal year, but at RECOF Corporation, sales fell short of the previous fiscal year due to major industry-reorganizing deals in the same period of the previous fiscal year.

Furthermore, there have been numerous inquiries from throughout the country, and the number of deals handled is increasing, with the cost of sales increasing year on year.

As a result, net sales in the consolidated cumulative third quarter under review were \$6,367.134 million (a decrease of 4.2% year on year), operating income was \$2,742.730 million (a decrease of 10.8% year on year), ordinary income was \$2,736.932 million (a decrease of 9.7% year on year), and profit attributable to owners of parent was \$1,878.816 million (a decrease of 10.5% year on year).

Segment information is omitted because our Group's reporting segment is only the M&A-related services business, and it is immaterial as disclosure information.

# (2) Explanation of Financial Position

(Current assets)

As of the end of the consolidated third quarter under review, current assets amounted to \$12,107.925 million, an increase of \$1,310.747 million year on year. This was primarily due to a \$1,322.262 million increase in cash and deposits.

#### (Non-current assets)

As of the end of the consolidated third quarter under review, non-current assets amounted to \(\frac{\pmathbf{2}}{2},423.059\) million, a decrease of \(\frac{\pmathbf{2}}{2}05.518\) million year on year. This was primarily due to a decrease of \(\frac{\pmathbf{1}}{4}145.095\) million in goodwill resulting from amortization of goodwill, a decrease of \(\frac{\pmathbf{2}}{2}5.744\) million in lease and guarantee deposits associated with amortization of asset retirement obligations, and a decrease of \(\frac{\pmathbf{2}}{2}9.314\) million in facilities attached to buildings, net, associated with progression of depreciation.

#### (Current liabilities)

As of the end of the consolidated third quarter under review, current assets

amounted to \$1,280.135 million, a decrease of \$792.050 million year on year. This was primarily due to a \$470.895 million decrease in accounts payable - other due to bonus payments and a \$340.079 million decrease in income taxes payable.

# (3) Explanation of Forecast of Consolidated Financial Results and Other Forward-looking Statements

No changes have been made to the forecast for consolidated financial results announced on October 27, 2017.

During the consolidated cumulative third quarter under review, although the Company's performance exceeded the forecast for consolidated financial results, the Group as a whole fell slightly short of the forecast for consolidated financial results because net sales were lower than budgeted for due to the impact of major deals that were closed by RECOF Corporation during the same period of the previous fiscal year. In this way, the M&A-related services business, which is our business, is affected by various factors, including the economic environment and the business environment of the parties, and subject to many uncertainties. Because significant uncertainty accompanies forecasts depending on the timing of the deal and the amount of fees, we are not changing the figures of the forecast at this time.
